

Business Knowledge Pack — India Passenger Vehicles

These documents are **real-project style SOPs / guides** aligned to the sample dataset in `sample_data/` (`fact_sales + dimensions`, India PV 2019–2026).

Documents

ID — File — Audience — Use in answers

|---|---|---|---|

IND-PV-SOP-001 — Sales Metric Definitions — FP&A;,, analysts, AI — Certified metrics (Revenue, Units, ASP, quarters)

IND-PV-SOP-002 — COVID Recovery Playbook — CXO, FP&A; — How to narrate 2020 trough & recovery

IND-PV-SOP-003 — EV & Powertrain Reporting — Product, marketing — EV share formula, kWh vs litres

IND-PV-SOP-004 — Regional Performance — Regional heads — Zone/city drill path & thresholds

IND-PV-GUIDE-005 — Executive Narrative Standards — Insights / Copilot — L1–L4 insight quality bar

Each document is available as **Markdown** (source of truth) and **PDF** (for OKF upload / stakeholder sharing).

How to load into the app

- Open the sidebar **Knowledge Base (OKF)** section.
- Click **SEED INDIA PV SOPs** (ingests all `` .md `` / `` .pdf `` in this folder).
- Ask questions such as:
 - “Why were 2020 sales down?” - “Is EV demand increasing?” - “Units sold by make”
- Narratives should show **Business context** + ■ **Knowledge** citations.

Warehouse path (future)

When this app connects to SQL Server / Synapse / Snowflake / Databricks, keep these SOPs as the **business contract** layer — metrics and narrative rules stay stable while the physical source changes.
